

DAILY INSPECTION NON-POWERED PEKO LIFT

Non-powered Peco-lifts must be routinely inspected to ensure they are safe for use. If you do not do this, not only are you failing in your duties under the Work at Height Regulations, but you risk an accident.

This checklist must be completed daily by the person using the Peco-lift.

Project Name/Site Address:	
Location of Peco-lift:	
Week Commencing:	

#	Check	Mon	Tue	Wed	Thu	Fri
1.	Wheels, Castors and Rubber Feet					
2.	Guardrails					
3.	Gates
