Welcome to the CFS 'End of Year' News Bulletin!

This year, our pursuit of excellence has birthed remarkable achievements and groundbreaking developments.

Join us in celebrating a year of growth and innovation! As we bid farewell to 2023, let the anticipation of the new year fill you with excitement for the limitless possibilities ahead.

Regional Highly Commended Winner 2023

Complete Fixing Solutions (CFS) proudly mark a significant milestone in our journey, as we are honored with the distinguished title of 'Regional Highly Commended' at this year's prestigious National Apprenticeship Awards 2023.

Our very own Oscar Corbett and David Hientz, dressed to the nines like James Bond and George Clooney themselves, collected the award on behalf of CFS.

Their impeccable style was only rivalled by the excellence and dedication that led to our triumphant award win.

We accept our 'Regional Highly Commended' award, with the awareness that our achievements carry a broader responsibility. We understand that by supporting apprenticeships and investing in the development of our workforce, we contribute to the growth of our local community and the broader social fabric.

HIGHLIGHT...

We are thrilled to share the success of our recent Fire Door Installation and Accreditation Training, that brought together a diverse group of over 60 attendees across a series of sessions.

Our primary goal in conducting these sessions is to foster and uphold a positive health and safety culture, emphasising the critical significance and increase awareness of the correct installation of fire doors.

Diverse Attendees, Invaluable Experiences

The training sessions brought together a wide spectrum of expertise, with participants ranging from our own site managers/supervisors and managing directors clients, as well as senior management and directors from client companies such as Taylor Made Joinery (TMJ), WFC Contractors, Specialist Group, London Drywall and Overbury PLC.

Knowledge Sharing and Collaboration

The heart of these training sessions lay in knowledge sharing. Attendees actively engaged in discussions, drawing from their experiences to shed light on real-world challenges and solutions related to fire door installation.

Fire Door Gap Gauge

Our dedication to safety and innovation drives us to provide solutions that empower construction professionals.

The CFS Fire Door Gap Gauge not only helps ensure precision in installation but also provides quick access to essential safety related documents.

Fire Door Installation & Accreditation booklet

Our new Fire Door Installation & Accreditation booklet is a crucial resource for understanding the importance of fire doors in building safety and ensuring their correct installation.

This booklet is intended as a point of reference for site managers, supervisors, and installers engaged in our projects.

It is important to note that this guide does not replace the manufacturer's instructions; rather, it is designed to serve as a supplementary resource.

Marsel's & Daniel's Milestones

Our very own Daniel Brown and Marsel Marinov have both recently completed their apprenticeship and attained a Level 2 Carpentry NVQ.

Marsel and Daniel both began their journey with CFS as a 17 year old school leavers, with only a limited taste of the construction industry.

Marsel and Daniel now assist our experienced carpenters/fixers in 1st & 2nd fix joinery and structural metalworks on various high-end projects.

A Heartfelt Act of Generosity

In a touching display of compassion, our Managing Director, David O'Brien, has extended a helping hand to seven-year-old Reevea McLoughlin from Burton, near Rosset. Reevea faces the challenges of Long QT Syndrome, a rare heart signaling disorder affecting approximately one in 2,000 individuals.

Upon learning about Reevea's condition through her mother, Janine Nugent, who sought community support on social media, David O'Brien swiftly stepped in to make a significant difference.

From a Rising to a 'Shooting Star'

Building on her recognition as a finalist in the SHP Rising Star Award 2022, Lamara has achieved significant milestones in her professional journey. She recently completed a Level 6 NVQ in Occupational Health & Safety, showcasing her dedication to mastering her craft. Attaining Cert IOSH status further underscores her commitment to excellence in the field.

Lamara's rapid progress and accomplishments exemplify the potential for growth and success within CFS. We eagerly anticipate witnessing Lamara's continued ascent in her career, confident that she will inspire others with her dedication, passion, and unwavering pursuit of excellence. Apprentice of the Month

It brings us great pleasure to announce Jack Clogg as the Apprentice of the Month for November 2023

Jack started his journey with CFS in March 2023, when he joined as a site labourer, and started his apprenticeship in September.

Please join me in congratulating Jack on this well-earned achievement. Your support and encouragement mean a lot, and I'm sure Jack will appreciate the recognition from his peers. [click here to read more...](#)

Almost a Baker's Dozen

In an era where lasting partnerships are rare, we are proud to announce our continued partnership with TMJ as we embark on the year 2024.

For over 12 years, our relationship with TMJ has been the cornerstone of our success, built on trust, shared values, and a commitment to excellence.

"As we step towards 2024, we do so with a sense of pride and gratitude, knowing that our partnership with TMJ will continue to shape our future."

Thank you, TMJ, for over a decade of trust and collaboration, and here's to many more years of shared success." - David O'Brien - CFS Managing Director
