Fire Door Installation & Accreditation Training

We are thrilled to announce the continuation of our Fire Door Installation & Accreditation training sessions following the resounding success of our recent program, and we're eager to build on this momentum.

We are currently running weekly sessions for our installers, focusing specifically on installing to BMTRADA QMARK standards. These sessions are led by our HSEQ Manager and our approved QMARK installers, ensuring that our team is equipped with the latest techniques and best practices to uphold the highest standards of quality and safety.

“

Participation in these sessions will not only benefit our professional growth but will also contribute to the overall safety and integrity of the projects we undertake.

Enhancing Team Unity: Branded Uniform Shirts

In our ongoing efforts to maintain high standards across all our sites, we have distributed branded uniform shirts to our site managers and supervisors.

These shirts not only serve as a symbol of our collective identity but also demonstrate our commitment to maintaining a professional appearance at all times. By setting the example and wearing these branded shirts, our managers and supervisors play a vital role in upholding our company values and standards.

“

As leaders on-site, it's up to the site managers & supervisors to set the example. That means wearing our uniform proudly and consistently, regardless of the task at hand.
